

**SAFETY AND RELIABILITY
AS STANDARD**

Freightliner

HEAVY HAUL

Freightliner Heavy Haul is the UK's most reliable rail operator for bulk freight. Its excellent customer service and reliability have led to sustained market growth. Today it carries everything from coal and aggregates to cement and infrastructure. Freightliner Heavy Haul also supports other railway companies through its range of network services.

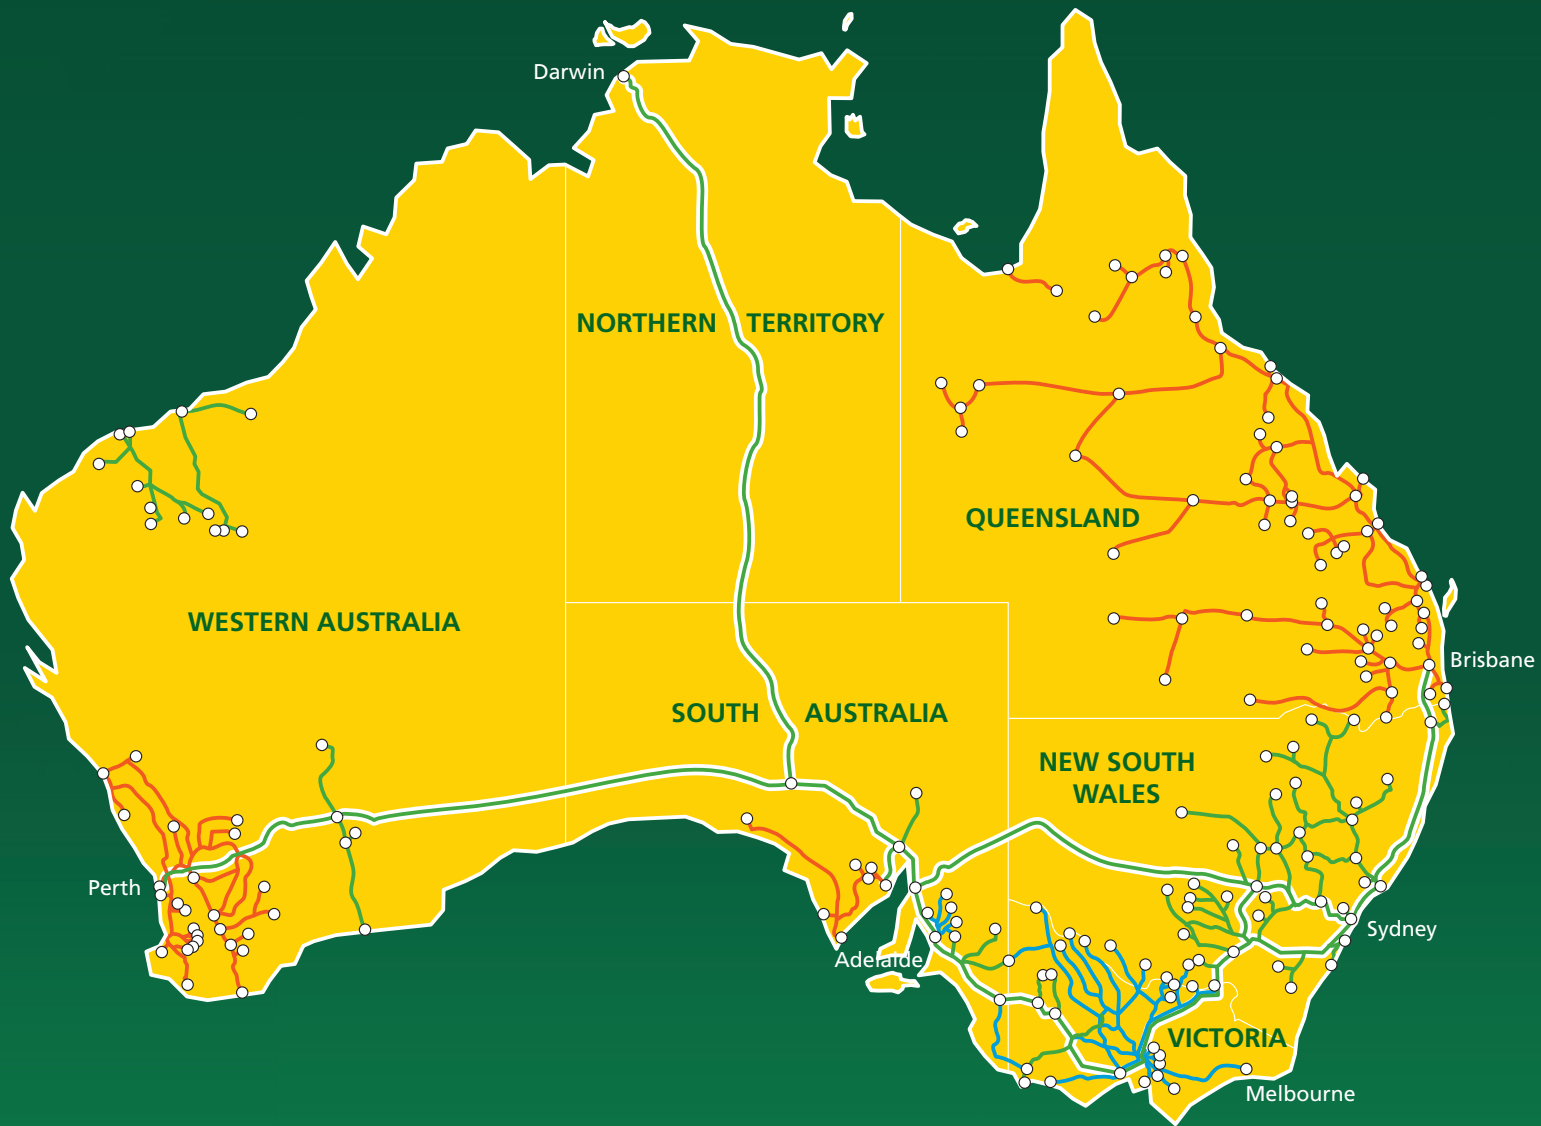

INTERMODAL

Freightliner is the UK's largest haulier of maritime containers. It ensures frequent and reliable connections between major ports and locations throughout the UK, using both rail and road. Freightliner works for shipping lines and shippers, and also serves the needs of other customers including freight consolidators and manufacturers.

An Introduction to the Freightliner Group

The Freightliner Group has an unrivalled record of delivering the highest quality services to a wide range of customers throughout the UK. It is a well-established company, showing steady growth, that continues to develop its services to meet customer demand. Australia provides the opportunity for Freightliner to offer the UK quality experience to an exciting market.

DEDICATED PERSONNEL

We offer a personal service. Every customer is assigned an experienced contract manager who understands your business. We work closely with you. We are part of your team – dedicated to serving your customers.

FLEXIBILITY

We understand that every customer is different. We have the flexibility and expertise to design the best solution for your logistics needs, at a price you can afford. Fast, reliable, cost-efficient services.

ROLLING STOCK

We have access to brand new equipment that is reliable, efficient and uses the latest technology. We will establish a rolling stock configuration that suits your specific requirements.

Freightliner Australia Pty Ltd.

The UK quality experience with local management knowledge and expertise.

SAFETY

The Freightliner Group demands the highest level of safety wherever it operates. Freightliner Australia has a comprehensive, integrated safety management system and provides all employees with safety training and awareness. The Freightliner Group has a reputation for safety and reliability, second to none.

AWARDS

Freightliner Group's achievements have been recognised by the industry with a variety of awards, including Rail Freight Company of the Year four times in the last five years and HSBC Train Operator of the Year. It continues to invest in both training and equipment to ensure it remains the best rail freight company wherever it operates.

THE ENVIRONMENT

Freightliner Group offers the most environmentally friendly way to move goods. As more and more companies focus on reducing their environmental impact, the fast, cost-effective and reliable Freightliner services – with the added bonus of reduced carbon emissions – have become the most logical choice.
